

I received some information from another school nurse that I thought I would share with you. She sent me this website to go to - <http://acirx.org/>. It has information for anyone needing assistance with obtaining prescription drugs. I have not tried to use this service myself, but I thought that if anyone needs some help, you could check out this website, where you can print a pre-activated discount prescription card, which is supposed to save you 40-60% of drug costs.

If anyone has heard of it or has tried this, please let me know what you think!! You can call 933-2242 or email me at [rswanson@clay-royal.k12.ia.us](mailto:rswanson@clay-royal.k12.ia.us).

Thanks!!

Randi Swanson, RN  
School Nurse
